### AMENDMENT TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the Application:

#### Listing of Claims:

Claim 1 (previously presented): A bulb structure including a glass shell, a pair of conductive wires, and a tungsten filament between the wires in the shell, the shell having a top portion forming a convex lens for condensing light as a lighting spot, said convex lens having an upper surface and a lower surface, said upper surface being substantially planar, said lower surface being convex.

Claim 2 (currently amended): A bulb structure including a glass shell, a pair of conductive wires, and a tungsten filament between the wires in the shell, the shell having a top portion forming a convex lens for condensing light as a lighting spot, said convex lens having an upper surface and a lower surface, said upper surface being convex, said lower surface being concave, an overall convex condensing lens being defined by said upper and lower surfaces for focusing of light generated by said tungsten filament.
